And one looked up in her sister's face,

The sky had changed its lue,
And that one cloud had chased away
The whole great heaven of blue.
The rain fell down in heavy drops,
The wind began to blow,

Went fretting to and fro;
For they said, "When we have aught in stor

hese two fair-haired sisters Now these two fair-haired sisters Had a brother out at sea—

A little midshipman aboard
The gallant "Victory."
And on that self-same morning,
When they stood behind the gate,
His ship was wrecked, and on a rate
He stood all desolate,
With the other spilor ground him.

Prepared to meet their fat eyond they saw the cool, green land Beyond they saw the cool. green land—
The land with its waving trees,
But above the burning noontide sun
With scorching stillness shone;
Their throats were parched with bitter thirst,
And they knelt, one by one,
And prayed to God for a drop of rain,
And a gale to waft them on.

The shower in mercy given,
And then before the rising breeze,
Their raft was land ward driven

And some few mornings after,
When the children met once more,
And their brother told the story,
They knew it was the hour
nen they had wished for sunshine,
And God had sent the shower.

I'm pizen proof myself, or I'd been dead Well, while were eaten', she spied out that his shirt was stiff and mighty slick; so she never rested till she worried it outen him that a preparation of flour did it, and she got a few particulars about the proceedings outer him, and set in and biled a big pot of paste-nigh unto a peck of it-and soused in my shirt

and let it soak awhile; then she tuck it and ironed it out flat and dry and sot it up on the edge agin the cabin in the sun. Thar it stood as stiff as a dry hoss hide, and it rattled like s sheet of iron-it did. It were paste together all over. When I come to dinner nothing would do but I must put it on. Well Bets and me got the thing open after some hord work, she pullin at one of the tails and me at tother, and I got into it. Artur I got dun I took about four fingers of red eye and crawled up into the cabin to take a snooze. Well when I waked up I thought I was dead or had the cholery, for all the jints I could move war my ankle, wrist and knees-could no even move my head or scasly wink

my eye-the cussed shirt was pasted fast onto me all over, from the ende of the tails to the pints of the broadaxe collar over my ears. It sot to me as close as a hide to a poor cow in march. I strained and quirumed till I sorter got it broke the shoulders and elbows, and then done the foolishest thing ever ver done in these mountains. I ahuffled my britches off and tore se from my hide about two inches of the tail all around in much ain and tribulation. Oh! but it lid hurt! Then I tuck up a plank nter the loft and hung my legs down through the hole and nailed the uge of the front tail to the floor

before me, and the hind tail I nailed to the plank I sot on. I unbettoned the collar and writbands, raised my eyes, said grace and jumped to the ground floor. Here Sut remarked sadly: -George, I'm a darnder fool than ever dad was, hoss, hornets and all. I'll drowd myself some of these

"Well, go on, Sut; did the shirt come off? "I t-k-i-n-k i-t d-i-d! Radical Rule at the South.

Some of the Alabama papers tell us a story illustrative of Radical rule in the central part of that State. At the last term of the Circuit Court of Lowndes county, Mr. C. H. Lefler, having shot a negro in the arm, was tried before a jury composed of an equal number of blacks and whites, was found guilty of assault and battery and fined. fifty dollars. To this sentence der his charge at Shelbyville will Judge Smith, alias Quin, added fifadd new reputation to his already teen days' imprisonment, afterward against the remonstrance of the Sheriff and Clerk of the Court, add-Meteoric Showers and the ed twenty days more to the term.

In the meantime, Lefler, not knowing of these additions to his senence, had gone home. A warrant was issued for his arrest, and placed in the hands of a deputy sheriff. At Hainesville, deputy in the office named McKib bon; took the warrant, and summoning a posse of fifty armed negrees, went to the plantation of Lefler to make the arrest. The lat ter was not found at home, whereupon McKibbon grew frurious, ordering the negroes to seize the horses of Leffer-some eighteen head in all and carry them away. A poung lady, Miss Farny Toy! told the negroes that they in take the horses, as they h to Mrs. Lofler, and for this

> The Benefits of the Grant Administration,

There is one newspaper which acually sustains the Administration of Grant. It is the New York Times, since the death of its late editor, Mr. Raymond. That journal actually makes an inventory of the benefits we have derived from it: The principal advantage, we are told is "that our Federal securities are worth to-day at least two hundred and and fifty million dollars more than they were worth the day our President was inaugurated, and are advancing at the rate of ten or fifteen million dollars a week." it is supposed, will be exceedingly fully dotted on his left arm, in red gratifying information. The holders of the bonds can receive for them two hundred and fifty million dollars more than they could when Grant came in. The capitalists who in Europe and in this country hold bonds will regard this as a splendid achievement. But there are not to exceed three nundred thousand bond holders. There are some five million voters who do not hold bonds, and who therefore will not share in the two hundred and fifty His . . Ivance. They are only

On the other hand, there are large additions to the negro population from the [adjoining States, and the prospects a e that the lower and tide-water section of the State will be entirel abandoned to the negroes, and relapse into wilderness and barbarism. The condition of affairs in that once most wealthy and productive section is already appalling, and fast becoming worse. Its utter sacrifice to the Moloch of Radical politics seems to be inevitable, and the failure of the crops there threaten to involve the population in the hortors of starvation

A Radical telegram from 12 dam Washington recently stated that "It was generally understood that President Grant has turned over the administration of the Government to his Cabinet, and that he takes little or no interest in what is going p His influence with his Cabinet Minsters is daily becoming less, while their power over him is daily becoming stronger," His Cabinet Ministers must have obtained a great influence over him, when one of them can take the liberty with him that Creswell did in his letter to Stokes Tennessee. Read:

"I earnestly advocate your election, and I trust that every sound Republican in your State will rally enthusiastically to your support. The President is absent from the city, but I am confident that I de clare his opinion and desire. JOHN A J. CRESWELL. Postmaster General.'

The President runs the Gift En terprise wit out the aid of his Cabli net Ministers, and that is about all

themselves. Recently several parhas now been put on the other foot, and Spain will now have a taste of Grant's beutrality policy. All of the gunboats which have been fitted out for her in this country are to be seized. Eight were taken New York a few days since. Deputies were sent to Greenpoint, Long Island, to se'ze seven more, and officers were also despatched to Mystic, Connecticut, to lay home teen others. The vessels have been seized upon information that they are intended to be used against Peru, and were to have guns sent on board before leaving, in violation of the neutrality laws.

The St. Louis papers continue to exult over the declared success New Orleans to the foreign markets of the world. It seems that information has recently reached St. Louis that the steamer Fire Queen had arrived at some foreign port in good order, and over the event the Democrat takes occasion to say: "The St. Louis Grain Association

The last cargo shipped was to Liverpool, by the steamer Fire Queen. She took on the grain in July, and it had previously lain many weeks in the tievator. It remained over three weeks in her hold before it was finally delivered, and now comes a cable telegram that it was in perfect condition, and Association of sixteen cent per bushel."

The expenses of the war department have been, for the last three months, \$1,000,000 a week. It costs as much, under Grant Administration, every three months, as it did in Democratic days to support the army a year. But then the latter did not keep up the military tyranny in the South, which Grant does. The Democracy ruled by the ballot, Grant by the bayonet.
